

KEURIG®

COMMERCIAL SERIES

K3000SE

LARGE OFFICE BREWER

This full-featured brewer is ideal
for large businesses

Engineered for
Continuous Use

DELICIOUS, MAGICALLY BREWED BEVERAGES AT THE TOUCH OF A BUTTON.

Keurig has redefined brewing by combining state-of-the-art brewer technology with unique K-Cup® pods. The K-Cup® system contains all of the essential elements required for brewing a single, fresh cup of perfect coffee, tea, hot cocoa, and more. With a choice of over 400 varieties of hot and iced beverages from the world's premier gourmet brands, Keurig® beverages are sure to keep everyone in your business pleased.

KEEP IT CLEAN: K-CUP® POD AUTO-EJECT & EASY-TO-EMPTY BIN

After brewing, each K-Cup® pod auto-ejects and drops into a convenient K-Cup® pod storage bin for later disposal. The brewer alerts you when the bin is full. A platform with a 70 K-Cup® pod bin can be added for additional, used K-Cup® pod storage.

SATISFY EVERY TASTE: FOUR BREW SIZES

Choose from four different brew sizes; 4 oz., 6 oz., 8 oz., or 10 oz. so you have the beverage you love in the quantity that you want! There's even a hot water only selection.

IT'S FOOLPROOF: EASY-TO-FOLLOW LCD INTERFACE

The K3000SE's interface walks you through the brewing process in easy-to-follow steps, in your choice of three different languages — English, Spanish, or French.

DRAIN AND STORE: DRAINABLE INTERNAL HOT WATER TANK

You can't get this from a home brewer. Only Keurig® commercial brewers offer the option to easily drain and remove water from the internal hot water tank for transport and storage.

THE KEURIG® K3000SE:

This, our largest and most advanced brewing system, is packed with features. The Keurig® K3000SE is the way large businesses brew fresh beverages that they and their customers love.

AUTOMATIC REFILLS: DIRECT-WATER-LINE PLUMBING

With the brewer directly connected to a water-line, you can brew a new beverage every 60 seconds without having to refill.

HARD WORKER: COMMERCIAL GRADE

The K3000SE is a rugged machine, built to commercial specifications and UL-approved for commercial use.

AN EYE FOR DETAILS: MUG AND K-CUP® POD SENSORS

Can't think before your first cup? The K3000SE alerts you if there is no mug or K-Cup® pod present, so there are no spills or accidental brewing without a K-Cup® pod.

FLIP AND FILL: DRIP TRAY FLIPS FOR TRAVEL MUGS

The large-capacity Drip Tray flips to accommodate travel mugs. It is designed for easy cleanup and versatility, plus it's dishwasher safe and easy to remove.

RECOUP COSTS: A VENDING OPTION

Brew great beverages and offset some of your costs. The Keurig® K3000SE can be paired with a coin changer that takes U.S. and Canadian coins: nickels, dimes, quarters, and Canadian dollars.

1

LIFT the brewer Handle and place K-Cup® pod.

2

PLACE mug on the Drip Tray and lower the brewer Handle.

3

SELECT one of FOUR cup sizes (4 oz., 6 oz., 8 oz., or 10 oz.) and press the flashing button below the desired size.

Since the beginning, we've been dedicated to the art and science of bringing you the coffee you love, every time.

Keurig® K-Cup® pods. The coffee you love.

Sealed to perfection.

Sealed to perfection to ensure that only freshness and flavor fill your cup, each and every time.

Always fresh-brewed.

The finest beans selected, roasted, ground, and measured to exacting specifications.

What brings out the flavor you love?

The ideal brewing environment inside, the perfect grind, advanced filtration, and water at the optimum pressure and temperature.

Your perfect cup.

With over 400 varieties from which to choose, your perfect cup is just seconds away.
